NEWPORT DAILY NEWS.

SATURDAY, July 20, 1867.

THE NEW VETO.

It has been understood from the first that the President would veto the legislation of the present session of Congress, upon the reconstruction question. Late reports just previous to the issuing of the message of yesterday, represented him as indulging a state of feeling similar to that which has characterized him on former occasions, since his contest with Congress began. If he had learned anything by experience, of which he seems incapable, he might have contented himself with sending back the bill with a brief and mild statement of his objections. Some of his friends are said even to have urged him to sign the bill. To do this, however, would have been inconsistent both with his inability to acquire wisdom by the defeats he has suffered and his determination to wage war with Congress as long as his ammunition holds out.

Besides, it appears that an opportunity had to be given Mr. Stanbery, to make an effort to justify himself in the opinion, published by him for the purpose of obstructing the reconstruction movements at the South, —an opinion that has been criticised scarcely less generally or less severely than Judge Taney's decision in the Dred Scott case. Neither Mr. Stanbery nor Mr. Johnson has gained much by this last attempt. It is powerless to hinder the progress of reconstruction on the triumph of liberal principles throughout the country. On the contrary, its effect will be, like that of the others in the same direction, to recoil to the disadvantage of its authors, to diminish the number of their adherents and strengthen the hands of their opponents.

Trial of John H. Surratt.

Of the proceedings in this case on Thursday, we are told they were almost wholly devoid of interest, but the court room was crowded as usual to the utmost capacity. The number of women in attendance increases daily. One witness was called to testify for Mrs. Surratt's benefit, but the evidence was ruled out. The defence directly charged that Weichman was an accomplice in the conspiracy, and wanted to put in evidence to that effect, but it was not received. Four or five swore that St. Marie's character is bad, which nobody doubted, and two swore to the same effect about Dr. McMillan the surgeon to whom Surratt made confessions on shipboard. One witness swore to making a Garibaldi coat for Surratt two weeks before the assassination, which the defence will probably argue was the one he had on while at Elmira. No testimony was taken in the afternoon, because no witnesses were present. Four more are on the way and are expected to-morrow. The defence will probably finish on Saturday. The prosecution will occupy two or three days in presenting rebutting evidence.

The actor Matthews publishes a letter this morning relative to his last interview with Booth, of which the following is the material portion:

"It was on the afternoon of Good Friday April 14, 1865, at about four o'clock, that I met John Wilkes Booth on horseback, on Pennsylvania avenue between 13th and 14th streets. We met, shook hands and passed the compliments of the day. It so happened that the officers of General Lee's army had just passed up in a body. I asked Booth, 'Johnny, have you seen Lee's officers just brought in?' He replied, 'Yes I have.' Then placing his hand upon his forehead he exclaimed, 'Great God, I have no longer a country!' Observing his paleness, nervousness and agitation, I remarked, 'John, how nervous you are, what is the matter?' To which he replied, 'Oh, no, it is nothing,' and continued with 'I have a little favor to ask of you, will you grant it?' He then stated 'Perhaps I may leave town tonight, and I have a letter here which I desire to be published in the National Intelligencer; please attend to it for me, unless I see you before 10 o'clock to-morrow. In that case I will see to it myself.' At that moment I observed General Grant riding by in an open carriage, carrying also his baggage. Seeing this I called Mr. Booth's attention to him and said, 'Why, there goes Grant. I thought he was coming to the theatre this evening with the President,' 'Where?' he exclaimed. I pointed to the carriage. He looked towards it, grasped my hand tightly and galloped down the avenue after the carriage. That was the last time I met him. I have stated all that occurred at the interview. The letter was given with no secrecy of manner, nor was there any remark made about anything that might occur during the night. Now for the contents of the letter. It was written on a sheet of commercial note paper, covering three pages, and it was only at the concluding paragraph that anything was said bearing upon what has transpired, which was to this effect and in these words:

"For a long time I have devoted my energies, my time and money to the accomplishment of a certain end. I have been disappointed. The moment has now arrived when I must change my plans. Many will blame me for what I am about to do, but posterity I am sure will justify me.

This letter, Matthews says, in private conversation, was signed by Booth, Payne, Herrold and Atzerodt, but before the judiciary committee, as has been ascertained today, he could only swear that he had an impression that it was so signed.

Treatment of Prisoners.

The committee appointed at the present session to investigate the circumstances attending the imprisonment of Union soldiers at the South during the war, has been organized and entered upon the preliminary steps for the prosecution of their inquiries. The number of persons interested or having knowledge upon the subject is so large, and they are so widely scattered, that the committee will not be able to summon them individually to testify to their knowledge of the facts. A circular has therefore been issued and published, requesting all persons having important information to address the committee, stating:

1st. The name, age, and post office address of the writer.

2d. If a soldier or seaman, his rank or position, and with what command he served.

3d. A full statement of all facts known to the writer, touching his own imprisonment or treatment, and that of others, either soldiers or citizens giving as far as possible, names, places and dates, with names of confederate officers in charge."

Correspondents from the New England States will address Aaron F. Stevens, M. C., Nashua, N. H.

Charles C. Ripley was elected Grand Commander in place of George Murphy, resigned, having left the State.

The G. W. P. and G. S. were continued a Committee on Resuscitation of Defunct Divisions.

The 25th anniversary of the Institution of the Order, occurring on the 29th day of September next, the National Division recommends a celebration of the same in each jurisdiction, and Representatives Wm. H. Smith of Woonsocket, H. Blundell of South Providence, D. Wilkinson of Pawtucket, Dr. T. W. Wood of Newport and T. C. Keith of Valley Falls, were appointed a committee to attend to the same.

Frederick A Fairbrother, P. B. Stiness, Jr., C. H. Higgins, A. D. Vose, Asa Sisson, and T. W. Wood, were elected delegates to the next New England Temperance Convention.

There were a large number of visitors present and the best feeling prevailed.

During the last quarter a Charter has been granted for a Division, to be located in Newport, the applicants for which are all colored persons.

An appropriation was made, as requested, by the National Division S. of T. of North America, of two cents per capita, towards a propagation fund in new territory. The members of South Providence Division, in whose hall the session was held, provided a bountiful collation, of which a genuine clam chowder and oysters formed only a part, but which was feelingly appreciated and responded to by an appropriate sentiment by a brother from the Narragansett country.

Appropriate remarks upon the cause, and prospects of the Division were made, and a vote of thanks for the hospitalities extended, closed the meeting.

CONVOCATION AT WICKFORD.—A Convocation of the Episcopal church was held at Wickford this week. On Tuesday evening Rev. Mr. Child, of Newport, preached. On Wednesday morning the Holy Communion was administered by Rev. Dr. Crane of Greenwich. In the evening the Convocation Sermon was delivered by Rev. Mr. Sears of Spragueville. Thursday, sermon by Rev. Dr. Waterman, of Providence. In the evening there were missionary addresses, by Rev. Dr. Crane, Rev. Mr. Duane and Rev. Mr. Henshaw, of Providence. All the services were exceedingly interesting. There were seventeen clergymen present.

On Thursday sixteen of the clergy rode out to the 'Old Platform,' about five miles from Wickford, the spot where the original church edifice was located, and from which it was removed to Wickford more than a century and a half ago. They rode in a vehicle prepared for the occasion—sang Old Hundred over the sacred remains that lie there sleeping—and returned to Wickford highly pleased with their deeply interesting excursion.—*Pendulum.*

In Ireland, the Roman Catholics constitute four-fifths of the population; In British America, two-fifths; in the United States, one-tenth; in Russia, Europe, one-ninth; in Prussia and other German States, one-third In Great Britain (exclusive of Ireland), they are one and a half millions out of twenty-three millions; in France, thirty-five out of thirty-seven; in Austria, twenty-seven out of thirty-five; in Switzerland, one out of two and a half; in Italy, twenty-one out of twenty-two. Of the thirty millions of Mexico, Central America, and South America, nearly all are Roman Catholics. The same is true of Portugal with its four millions, Spain with its sixteen and a half millions, and Belgium with its four and a half millions. In Norway, Sweden and Denmark there are but six thousand Roman Catholics among a population of eight millions. The entire Roman Catholic population of the globe is about one hundred and eighty-five millions; the entire Protestant population, about ninety-five millions.

The cheapest way, and the only way to procure peace permanently with the Indians, in the opinion of the Chicago Tribune, is to gather them into districts of convenient size, and to establish at each of these reservations a government storehouse, from which rations may be issued to them according to their wants. That policy would utterly demolish their fighting propensities. In three years there would be no more fear of an Indian war than of a new pro-slavery rebellion. They would be as harmless as prairie dogs.

An alarming accident occurred a few days back in the Casino at Marseilles. Two American gymnasts, brothers, named Howard, were going through their performances, hanging by their hands to a ladder fixed horizontally near the ceiling, when one of them made a spring with the intention of clasping the other round the body, but missed his grasp and fell from an immense height into the orchestra. Although seriously bruised, none of his bones were broken, and he is said to be out of danger.

The Providence Journal advocates a reduction of the classes of citizens that are now exempt from serving as jurors. It says an educated physician, not in full practice, is often a desirable man for the jury, and there is no reason why he should be exempt. The clergy who would give character to the jury, and increase public confidence in its verdicts, ought not to be exempt. Public officers should be exempt only when the service interferes with their public duties."

Rev. A. Howard writes from Providence, July 8th: "It was my privilege to receive four more converts into the fellowship of the Third church yesterday."

SCARE ON PROSPECT HILL STREET.—Last night about 11 o'clock, two ladies living alone in a house on Prospect Hill Street were badly scared by what they considered an effort on the part of some person to effect an entrance into their house. They raised a window and by a vigorous use of their lungs and other vocal machinery succeeded in rousing a young man living opposite, who procured the assistance of Sergeant Holland of the Police, and the two searched the house without finding the cause of the disturbance.

TEMPERANCE IN CONGRESS. "Ten Minute Speeches" by Hons. Schuyler Colfax, Henry Wilson, Richard Yates, William E. Dodge, Hiram Price, Samuel McKee, F. E. Woodbridge, J. B. Grinnell, and J. W. Price 25 cents.

"TEN MINUTE SPEECHES," or "Temperance in Congress," is beautifully printed on tinted paper, in large, clear letter, and is worthy of the great occasion which called it forth. We would have a copy placed in the hands of every young man in the nation. It would serve to fortify him in resisting temptations, which will sooner or later beset him. Walled in with the best resolutions, he is still liable to fall. This concentrated and powerful appeal will help such a one to keep his resolutions, and must produce conviction in the heart of the skeptic, and hold the convert. Reader, place a copy of "Temperance in Congress" in the hands of the one you love best.

In England there are about three hundred Unitarian ministers who have charge of congregations. The denomination has, in London, the British and Foreign Unitarin Association and the London Domestic Mission Society. In the country there are sixteen Domestic Missions and forty Tract and other Societies. In Ireland there are three Presbyterian bodies, which in point of doctrine are regarded as Unitarians, namely: the Presbytery of Antrim, the Remonstrant Synod of Ulster, and the Synod of Meinster. Together, they form the "Non-subscribing Presbyterian Association of Ireland," which meets annually. In the English Colonies the Unitarians have eleven chapels. On the continent of Europe the Unitarians exist as a separate denomination only in the Austrian province of Transylvania, where they number a population of over 50,000. The latter have lately commenced to cultivate more intimate relations with those of Great Britain.

On Sunday afternoons religious exercises are held in the Park, under the direction of different clergymen, in the open air. The people gather by thousands under the grateful shade, and enjoy the fresh air and sweet odors of rural nature, while they listen, at the same time, to words of Christian instruction in harmony with the peaceful serenity of the place and the occasion. Order and good conduct generally have prevailed, and it is found that a good many people attend this outdoor church under the trees, who would not sit still under a roof on a fine Sunday.—*Balt. The exercises of the graduating class of Wheaton Seminary, Norton, took place on Wednesday. The graduating class consisted of seven young ladies. Rev. Dr. Thurston, of F. River, delivered an address on Woman's Rights. He defined woman's rights to be, exemption from the turmoils, trials and temptations of the busy and bustling outside world, the declining of political offices and honors, and restriction to the quiet spheres of duty for which she is adapted and for which she was intended.

The *Advocate* says: A Brooklyn Methodist, Mr. James Armstrong, has gone to Ireland, for the purpose of erecting, at his own expense, a Methodist Church in his native town. We have just heard of another and still more remarkable case of the same kind: Mr. John Glass, of Jamaica, Long Island, having been engaged in this city in his calling as a builder, by which he has passed in five years from poverty to wealth, has devoted the necessary amount for the erection of a neat chapel and school house in his native town of Banbridge, County Down, Ireland.

THE BOSTON BATHS.—During the month of June, the aggregate number of baths taken at the twelve places provided by the city of Boston was 179,167. Last year in June the number was 107,070. This would seem to indicate that the masses are a washing and swimming people. Of the whole 179,167 above stated, 15,070 were women and girls.

News Miscellany.

The list of entries for the purses to be trotted for at the opening of Narragansett park, has been made up. Several entries have been made for each purse. The trial is to take place at Amasa Sprague's grounds in Cranston, July 31st, and Aug. 1st and 2nd.

Mr. S. S. Cox has left Washington, not having made much headway with his attempt to get the Democracy to nominate General Grant for the Presidency in advance. He thinks they will take up G. H. Pendleton, but, as he says the Democratic party has been virtually defunct for four years, there is not the remotest chance for them with any one.

The Americans in Paris celebrated the Fourth of July with a dinner, speeches, &c Carleton relates an amusing incident which occurred when the sentiment to the Emperor was given. The members of the orchestra being Frenchmen did not understand the purport of the toast, and responded with "Yankee Doodle." The entire company broke into uproarious laughter. The musicians were astounded, looked at each other, wondering what it all meant, the company rising and cheering vociferously. There was a dry humor in the thought that the Emperor had kept time to the music of "Yankee Doodle" in the withdrawal of the French troops from Mexico.

Most of fifty thousand Germans in St. Louis are free thinkers. They seldom, if ever trouble the churches, and with them Sunday is a splendid holiday. The more aristocratic and wealthy throng the club rooms. Beer gardens and beer houses are in full blast. The best bands of the city are always engaged for the people's amusement. The parks are crowded, and the whole city seems to regard Sunday as a gala day. In the evening the theatres (German) are thronged from "pit to dome."

The Pall Mall Gazette tells the following story:

"There used to be a story current among Winchester boys to the effect that in old Dr. Hungerford's days the boys on the foundation were not allowed potatoes as a portion of the college diet. On representating the hardship of the case to the Doctor he replied that if it had been good for the boys to have potatoes they would have been provided for by the founder of the school. When it was suggested to him that potatoes were not known in England until the discovery of America, he remarked that this entirely altered the state of the case, and from that time forth potatoes were permitted."

A member of Congress has moved an inquiry into the cause of the total cessation of ship-building throughout the country. The reason perhaps does not lie so deeply hidden as to require any great search to find it, but it is none the less certain that something should be done for the encouragement of this great and important interest. It suffered severely during the war and seems now in a fair way to be extinguished entirely, unless something is done for its relief.

Mr. Littell has completed his seventieth year. Ever since he was of age he has been engaged in republishing the ablest articles of current foreign magazines. He founded this department of American periodical literature. His *Living Age*, of which the fifth volume of the fourth series has just been printed, was first issued in the spring of 1844. Ninety-three volumes of it have been published. Its circulation was never better than now.

A good story is told of the St. Paul *Pioneer*. They have lately had an editorial convention in that section, and a number of Radical editors visited the *Pioneer's* sanctum, and, sitting down to the desks, scratched off partisan editorials, squibs, etc., which were forthwith sent up to the compositors' room. Nothing but the quick eye of the editor-in-chief could have prevented the paper from issuing one thoroughgoing Republican number.

SAVE YOUR DOCTOR'S BILLS.—When Dr. Wistar's Balsam of Wild Cherry will cure coughs, colds, bleeding at the lungs, and arrest the fell destroyer. Consumption, it does more than most physicians can do.—The use of a single bottle, costing one dollar, will satisfy the incredulous that they need look no further for the required aid.

FIRE.—Last evening, on passing Rice & Campbell's cigar store, No 29 Market square, our attention was arrested by a dense volume of smoke issuing therefrom. On investigation we found it to be caused by a number of those excellent Emblems, made by this popular firm, and which, at the time, were undergoing a process of slow combustion by the aid of certain admirers of the aforesaid Emblems. Only this and nothing more.

FOR THE CURE OF NEURALGIA and other Nervous Diseases, many eminent physicians have prescribed *Turner's Universal Neuralgia Pills* with the most satisfactory results. In thousands of cases it has effected permanent cures, and we are glad to call the attention of our readers who are sufferers from this very common complaint, to a remedy which comes to us so well endorsed that we cannot doubt it will prove efficacious in nine cases out of ten. It may be had of any druggist.

SPECIAL NOTICES.

DYSPEPSIA.

There is no disease which experience has so amply proved to be remediable by the PERUVIAN SYRUP, (a protected solution of the Protoxide of Iron), as Dyspepsia. The most inveterate forms of this disease have been completely cured by this medicine, as ample testimony of some of our first citizens proves.

FROM THE VENERABLE ARCHDEACON SCOTT, D. D.

Dunham, Canada East.

* * * "I am an inveterate Dyspeptic of more than 25 years' standing."

* * * "I have been so wonderfully benefited in the three short weeks during which I have used the Peruvian Syrup, that I can scarcely persuade myself of the reality. People who have known me are astonished at the change. I am widely known, and can but recommend to others that which has done so much for me." * * *

ANOTHER CLERGYMAN WRITES AS FOLLOWS:

"My voyage to Europe is indefinitely postponed. I have discovered the "Fountain of Health" on this side of the Atlantic. Three bottles of Peruvian Syrup have rescued me from the fangs of the fiend Dyspepsia."

A pamphlet of 32 pages, containing a history of this remarkable remedy, with a treatise on "Iron as a medicine," will be sent free to any address.

The genuine has "PERUVIAN SYRUP" blown in the glass.

Proofs by Reason and Proofs by Result.

Only Mathematical and Physical Phenomena can be Explained by Reason.

The action of preparations of all kinds upon the system of the invalid as well as of the sick can be judged of most surely only by the results. We see, for instance, that the sick and suffering are quickly restored by the use of Hoff's Malt Extract Beverage of Health. Paleness, that sunken, sickly look of wasted flesh, of chlorosis, of weakness, or the sallow complexion, that indicator of impurity of the blood or a disordered liver, soon disappear by the use of Hoff's Malt Extract Beverage of Health, which restores colour to the faded cheek by renewing the blood; but let us hear what our patrons have to say:

I have been cured from Dyspepsia by Hoff's Malt Extract, 6 West 26th street, N. Y. WM. MOLLER.

It does not leave acid upon the stomach and has improved my health. MRS. CHAMPLAIN, of Essex, Conn.

I found it invaluable as an appetizer, and my wife takes it instead of ale with much benefit. 234 West 13th street, N. Y. H. McCORMACK.

TELEGRAMS.

CONGRESS.

—o—

WASHINGTON, July 20.

In Congress messages were received from the President communicating his objections to the supplementary reconstruction act and the act appropriating a million of dollars for carrying it out. The House, after a warm debate, passed the bills over the veto—the last named by a vote of 100 to 22. The Senate, without debate, passed the bills over the veto, respectively by votes of 30 to 6 and 32 to 4.

The other business in the Senate included the passage of the resolution extending mail service to Japan and China, a resolution of sympathy with the Cretans, the District equal rights bill with an amendment which sent it to the House, the House bill prohibiting the formation of treaties with the Indian tribes, and a substitute for the House resolution of adjournment to the middle of Nov. in accordance with which, if concurred in by the House, Congress will adjourn to-morrow to the first Monday in December.

In the House, in addition to the reconstruction acts, the following were passed: A resolution authorizing an investigation in the Paymaster-General's office; the Senate resolution of sympathy with the people of Crete; a joint resolution prohibiting the removal of the military commanders in the South without the consent of the Senate, unless recommended by the General of the Army, and a motion to concur in the Senate amendment to the District equal rights bill.

AFFAIRS IN MEXICO.

—o—

Nicaragua Negotiating a Treaty with the United States.

—o—

NEW YORK, July 19.

A dispatch from New Orleans says Juarez was expected at the city of Mexico on the 15th inst. Cortina, who had been reported on the Rio Grande with an army of observation, is now said to be watching Lozada, the martial commander in Jalisco. Ortega is to be released soon and is to be a member of the Congress called by Juarez. It is stated that several more Imperial prisoners have been condemned at Queretaro. Two transports have been seen bound for Vera Cruz, with the French flag at their peaks.—The death of Santa Anna is said to be confirmed. Several Liberal Generals had resigned on account of the bloody work at Queretaro.

It is said the Government of Nicaragua has taken measures to open negotiations with the United States, having in view a treaty of amity, commerce, &c. Complaints are made of obstructions in the Rio San Juan Nicaragua, placed there by the French and other foreign settlers, rendering traffic on the river dangerous and in some places impossible.

INDIAN OUTRAGE.

Ten Priests Killed and Six Sisters of Charity Carried off Captives.

—o—

NEW YORK, July 19.

A dispatch from Leavenworth says a train carrying Bishop Lamey, ten priests and six Sisters of Charity, who were going to Santa Fe, was captured by the Indians near Fort Learned on Sunday. The men were killed and shockingly mutilated, and the women carried off captives.

ANNEXATION OF MEXICO.

PROFESSED OVERTURES FROM THE LIBERAL PARTY.

NEW YORK, July 19.—A special Washington dispatch says Mr. Abbott, brother of the historian, has broached the proposition to leading members of Congress for the annexation of Mexico, which he intimates meets with the approbation of Juarez and the chiefs of the Mexican Republican party. The latter fear, it is said, another foreign intervention on account of the execution of Maximilian or the continuation of intestine strife, engendered by bad blood, between the leading military chieftains, and will be satisfied with annexation provided they themselves can be secured in some good government berth and peace can be secured to the country. Mr. Abbott's propositions were received with hesitation by Mr. Sumner and General Banks, but other members, among whom were Messrs. Howard, Chandler, Cole and others, received the propositions with much favor.

LETTER TO THE SIGNERS OF MY PETITION.

I THOUGHT that I would inform you, that where you wanted a street they are putting up a brick building. Also, I will inform you that the city have got a lot of land fenced in by the School Committee. Let them take the deed and go on the premises and take the first starting point, when they will find the deed don't give them the land that they have got fenced in; it is a poor policy to take from the poor and give to the rich.

When I was master of a ship of 800 tons very little I thought that I was going to be ruled. I am not a great friend to the House Carpenters and to the Painters and Shoemakers, and to a Tape Merchant, my signers to my petition, my prayer to God is, all your lives may be spared to the end of another year when a new Council will take the helm, then I will call on you again. You all know that a street is needed, and we must have it. I remain your humble servant,

Peerless Cooking Stove.

HEAR what the Boston Journal says of this superior article:

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the oven to bake or roast perfectly and evenly, a great desideratum with a careful housewife, the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless stove." Sole agent in Newport,

THE UNION PACIFIC
RAIL ROAD CO.

Are now constructing a Railroad from

OMAHA, NEBRASKA,

westward toward the Pacific Ocean, making with its connections an unbroken line

Across the Continent.

The Company now offer a limited amount of their

First Mortgage Bonds

having thirty years to run, and bearing annual interest, payable on the first day of January and July, in the City of New York, at the rate of

SIX PER CENT IN GOLD,

Ninety C[illegible] he Dollar.

This road is already completed to Julesburgh, 376 miles west of Omaha, and is fully equipped, and trains are regularly running over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 141 miles, which is under contract to be done in September of this year, and it is expected that the entire road will be in running order from Omaha to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1,565 miles, the United States Government issues its Six per cent. thirty-year Bonds to the Company as the road is finished at the average rate of about $28,250 per mile, amounting to $44,208,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States being subordinate to them.

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,032,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $118,416,000; but the full value of the lands cannot now be realized.

The authorized Capital of the Company is one hundred million dollars, of which five million have already been paid in, and of which it is not supposed that more than twenty-five million at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipment.

Prospects for Business,

The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the first two weeks in May were $113,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds,

The Company respectfully submit, that the above statement of facts fully demonstrate the security of their Bonds, and as additional proof they would suggest that the bonds now offered are less than ten million dollars on 517 miles of road, on which over twenty million dollars have already been expended;—on 335 miles of this road the cars are now running, and the remaining 182 miles are nearly completed.

At the present rate of premium on gold these bonds pay an annual interest on the present cost of

Nine Per Cent.,

and it is believed that on the completion of the road, like the Government Bonds they will go above par. The Company intend to sell but a limited amount at the present low rates, and retain the right to advance the price at their option.

WORM LOZENGES

ARE WITHOUT EXCEPTION

THE MOST EXTRAORDINARY

Medicine of the Age

Combining, as they do,

REMARKABLE POWER

IN EXPELLING WORMS

with

PLEASANT TASTE AND PERFECT SAFETY

They contain

NO MERCURY,
NO MINERAL,
NO TURPENTINE,
NO POISON,
NOTHING INJURIOUS

They are entirely Vegetable

SYMPTOMS OF WORMS:

Itching of the nose, feverishness, twitching or starting and fears during sleep, pain in the stomach, loss of flesh, paleness with livid rings, at times restless, at others feeble, a dullness of the eyes, drowsiness, a swelled upper lip, tongue whitely furred, and studded with red spots, fetid or garlic breath, grinding of teeth during sleep, a sensation of a dryness in the throat, an unnatural craving for dirt, chalk, or clay, fretfulness and irritability of temper, colic, fits and palsy.

Intestinal Worms

Are among the first to undermine the constitution in the list of diseases. They often occasion severe disease, ending sometimes fatally, particularly when they ascend to the stomach. Their presence in their most ordinary situation is attended with more or fewer ill effects upon the general health.

EMINENT MEN ASSERT

That all are more or less troubled with worms, and that many die annually from this cause, who, by the timely administration of a proper remedy, would be saved. As FELLOWS' WORM LOZENGES may be taken without any but the best result, and as in most children are found of them, their use is recommended in those apparently healthy, and thus dispel the cause of what would prove a terrible case.

Be Careful What You Use.

Various remedies have, from time to time, been recommended, such as Calomel, Oil of Wormseed, Turpentine, &c., that are dangerous and sometimes fatal in consequences are produced. The analysis of a chemist and state remedy has a set aside by the proprietors of FELLOWS' WORM LOZENGES. They are positively safe, pleasant and efficient. They do not kill the Worms, but act by making their dwelling places disagreeable to them. In order, however, to guard consumers against deception by those compound, the analysis of Dr. A. A. Hayes' State Assayer, proving the above statements, is annexed:—

"I have analyzed the Worm Lozenges prepared by Messrs. Fellows & Co., and find them to be free from mercury and other metallic or mineral poisons. These Lozenges are skilfully compounded, pleasant to the taste, safe, yet sure and effective in their action.

Respectfully,
A. A. HAYES, M.D.,
Assayer to the State of Mass."

Please Remember

That FELLOWS' WORM LOZENGES are prepared with great care from the most active [illegible]. They do not act as a purgative or emetic, which often debilitate the patient, are so simple an infant may devour a whole box without harm and will at the same time expel the worms from extraordinary manner.

☞ Fellows' Worm Lozenges is the only Worm remedy known, combining harmless qualities with delicious taste and amazing power.

Testimonials

From Persons of the First Respectability in New Brunswick, Concerning

Fellows' Worm Lozenges

From a Justice of the Peace.

Prins. P. C. May 12, 1866.

Messrs. FELLOWS & Co.: Gents:—I had lately sent to the store the other day for some very [illegible], and the man not having much on hand, sent me some of your Worm Lozenges. My children have all complained of worms at the time. I gave them according to the directions, and in twenty-four hours from the time they commenced taking the Lozenges, one (a boy about five years old) had passed twenty-five large worms; the other (a girl three years old) had passed twelve; and I do not doubt but they would, in my slight acquaintance with your remedy, I feel satisfied that your Lozenges are cheaper, in every respect, and more effectual than any I have ever used, and I cheerfully recommend them to all to be of families.

Yours, with respect,
JOHN S. COLPITS, J. P.

Rev Mr Jackson, a Baptist Clergyman, writing from St Martins, in reference to the Worm Lozenges, says:

Messrs. FELLOWS & Co.: Gents:—It affords me great pleasure in saying that I have known in my own family, and in the families of others, wonderful effects produced by the use of Fellows' Worm Lozenges; and I can certify most cordially, that I believe them to be the most effectual remedy that has ever been brought for the removal of worms from the human stomach; and I [illegible] in presenting such a valuable remedy to the world that you may receive large patronage from the public in general.

I remain, dear sirs, yours truly,
WELLINGTON JACKSON.

St Martins, N. B., Aug 25 1866.

Physicians' Testimony in favor of Fellows' Worm Lozenges.

SACKVILLE, July, 24 1866.

Messrs. FELLOWS & Co., St John,—Gentlemen:—I have examined your Worm Lozenges, and have become acquainted with their effects on worms by facts, and have much pleasure in recommending them as a safe and effectual remedy for worms; and I fully believe that their employment as such will give satisfaction.

Yours, respectfully,
W. S. FOSHAY, M. D.

Letter from the Rev. Dr. Clay to the Editor of the Christian Visitor.

COLLEGE, St. John, N. B. Nov. 21, 1866.

Mr. FELLOWS,—I was induced to try "Fellows' Lozenges, having had a number of children under my care whose stomachs were so irritable that my ordinary medicines could not be given. I am convinced by the tests that will meet their use was successful, that I can recommend them as one of the most pleasant and safe medicines that can be administered.

EDWIN CLAY, M. D.

St. John, N. B. March, 1866.

Messrs. FELLOWS & Co.: This is to certify that my little boy, aged six years, having been much troubled with worms of late, I administered five of your Worm Lozenges, per directions, and in a short time after he passed several large worms. I consider these Lozenges particularly valuable, as the children are fond of them. You are at liberty to use this for the benefit of others.

MATTHEW HARRISON.

St. John, N. B. Oct., 1866.

Messrs. FELLOWS & Co.: It is due to you, the heads of families, and to the public at large, that I should give a statement of the effect of your Worm Lozenges in my family. My daughter, aged about five years, had been troubled with a severe cough nearly two years, first in Dorchester, Mass., where our doctor attended her for a long time. Finding the cough not to leave her, I procured syrups and other remedies, but without any relief. Since I came to this city, I procured medical aid, and finding that the child grew worse, so that we feared that she would die, we despaired of getting a remedy. At last a lady friend called in, and assured us that the child was troubled with worms, and that the cough originated from that cause. I administered your Worm Lozenges, and in a short time she passed a large quantity of worms, and I even saw one of them, as large as my little finger. One tube, only seventeen months old, ate two Lozenges, and although seemingly healthy, it passed a worm at least eight inches long. I am happy to say that the little girl, who for three days, had eaten scarcely anything, has a good appetite, and is now doing well.

Government and other Desirable Securities,

No. 5 Nassau St., N. Y.

FIRST MORTGAGE BONDS

OF THE

CENTRAL
Pacific R. R. Company.

This Company is constructing under the patronage of the

U. S. Government,

the Western end of the

Great National Railway across the Continent.

The Line will extend from Sacramento, California across the Sierra Nevadas to the California State line traversing the richest and most populous section of CALIFORNIA, and thence through the GREAT MINING REGIONS OF THE TERRITORIES, to the vicinity of Salt Lake City.

It forms the sole WESTERN LINK of the only route to the Pacific which is adopted by Congress and aided by the issue of UNITED STATES BONDS.

Their road is already completed, equipped, and run for 94 miles from Sacramento to within 12 miles of the summit of the Sierras, and a large amount of the work of Grading, Tunneling, &c., beyond that point has been accomplished.

The FIRST MORTGAGE BONDS of this Company afford unusual inducements of Safety and Profit to Investors, for the following among other reasons; viz:

FIRST. The rate of interest is SIX PER CENT. in GOLD, payable semi-annually in the City of New York.

SECOND. The PRINCIPAL is payable in GOLD at maturity.

THIRD. The cost of the Bonds, NINETY-FIVE PER CENT. and accrued interest, is TEN PER CENT. less than that of the cheapest Six Per cent. Gold Bearing Bonds of the Government.

FOURTH. The United States Government provides nearly half the amount necessary to build the entire road, and looks mainly to a small percentage on the future traffic for re-payment.

FIFTH. Owing to this liberal provision, accompanied with Extensive Grants of Public Lands, by which the Government fosters this great national enterprise, its success is rendered certain, and its financial stability is altogether independent of the contingencies which attend ordinary Railroad enterprises.

SIXTH. The Security of its FIRST MORTGAGE BONDS is therefore ample, and their character for safety and reliability is equalled only by that of the obligations of the Government itself.

SEVENTH. The net earnings of the completed portion are already largely in excess of the interest obligations which the Company will incur on twice the distance, and are steadily increasing, making the uninterrupted payment of the interest absolutely certain.

EIGHTH. At the present rate of Gold they pay nearly 8 1-2 Per Cent. per annum, on the amount invested.

The Bonds are issued in denominations of $1,000 with semi-annual Gold Coupons attached, payable in New York, and are offered for the present at 95 per cent, and accrued interest (in currency) from January 1st.

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes, or other funds current in this city, and the Bonds will be forwarded to any address by Express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive punctual attention.

Alpine Bitters.

The **ALPINE BITTERS**, imported exclusively from Switzerland, is made from Roots and Herbs, harmless in themselves, but marvelous in their strengthening properties. Their recuperative qualities are unrivalled, and are especially efficacious in all cases of Female Debility, arising from any cause whatsoever; also for Dyspepsia, Indigestion, Headache, Nervousness, Loss of Appetite, and as a positive preventive of Chills and Fever.

The **ALPINE BITTERS** have a soothing and restoring influence upon the system, especially upon the digestive organs, and are highly recommended to ladies and even children in delicate health, and to all who are averse to taking wine, poisonous whiskeys or other stimulants.

The continually increasing demand for this universal popular Invigorating Tonic and Anti-Dyspeptic Bitters has induced the undersigned to make such arrangements as will enable them to easily supply all orders with which they may hereafter be favored.
